FAQ

I don't really know what I need, can I have a consultation call?

Yes, we are more than happy to offer consultation calls to brands who might be unsure what stage they are at in their business. We've tried to streamline our services to make it as easy as possible to know which category you fall under, but we get that sometimes it's not always that simple!

Do you offer just logo design?

No. We work with brands who understand the importance of branding as a whole and will never offer brand design without building out a strategy first.

How long does a typical project take?

The timeline for each project varies based on its complexity but typically falls between 4 and 10 weeks. You will be provided with an estimated turnaround time once the specific needs of your brand have been discussed, and you have an outline of your project.

What are the payment terms?

We either take payment in full or a split payment (split payments can be discussed). A deposit is required to secure your project start date.

Can I pay on a payment plan?

If you would like to discuss a payment plan, please contact us at info@thebrandologylab.co.uk

Do you provide support after the project is completed?

Yes! We believe in building long term relationships with our clients and would never want them to see us as a transaction. We're here to help with any ongoing advice and support even after your project has been complete.
